The University of Texas at San Antonio
College of Education and Human Development (COEHD)
POST-BACCALAUREATE TEACHER CERTIFICATION PROGRAM
SECONDARY – Science- Chemistry Emphasis
For certification in grades 8-12

Student Name: ___________________________ Banner ID: ____________

ADMISSION REQUIREMENTS

___ Attend a Teacher Certification Information Meeting;
___ Be admitted to UTSA;
___ Maintain your assigned UTSA e-mail address;
___ Hold a Bachelor’s degree from an accredited University:

(Degree-BA, MA, etc) (University) (Date)

___ Meet minimum GPA requirements (on a 4.0 scale):
    Cumulative of 2.5 or better; or
    2.75 or higher in the last 60 hours; or
    Enrolling in 12 semester hours of upper division UTSA coursework (chosen with advisor approval and excluding restricted Education courses), earning a B or better in each course, and thereafter maintaining a 2.75 GPA in all coursework taken at UTSA or elsewhere leading to certification. A student selecting this option must meet the GPA requirement within four consecutive long semesters of initially enrolling in certification coursework after consulting with a COEHD advisor;
___ Submit an application to the UTSA Post-Baccalaureate Teacher Certification Program;
___ Submit an authorization for a Texas Department of Public Safety criminal background report; and

___ Because the State of Texas requires that teacher certification programs screen prospective teachers for public speaking ability, critical thinking skills, reading, writing and math abilities, you must evidence (by professional training or earning at least a C in related coursework) your basic skills in these areas.

Public Speaking: _____________________________
Critical Thinking: _____________________________
Reading: _____________________________
Writing: _____________________________
Math: _____________________________

COURSEWORK REQUIREMENTS

Acceptable transfer or UTSA courses may be counted if they have been taken within the last ten (10) years and if they fulfill the content and intent of the equivalent required course. The 10-year limit will be waived with a minimum passing score on the relevant TExES practice test. For further information about this testing option, please see a UTSA certification advisor. Some courses require field experience. Refer to catalog for course descriptions and information about required fieldwork.

PROFESSIONAL EDUCATION

** These courses, together with student teaching, must be taken at UTSA. Courses are restricted to students admitted to the Teacher Certification Program. Advisor Clearance is required for enrollment in these classes and may be applied for in the COEHD Certification and Advising Center two weeks prior to registration. Most restricted courses are offered during the fall & spring semesters only.

TEACHING FIELD

24 hours in Primary Field (Chemistry)

Final Semester

STUDENT TEACHING/INTERSHIP:

Student teaching is an essential component of the teacher certification program. All UTSA students should make plans to be available for full-time student teaching during the final semester. Student teaching is offered during the fall and spring semesters only. Students should apply for student teaching one long semester in advance.
Students who have extensive experience as an instructional assistant or as a permanent long-term substitute teacher may qualify for a Post-Baccalaureate internship. Specific requirements for and general information about the internship are available in the COEHD Advising and Certification Center. Students with two years of teaching experience in an accredited school (see Note 6 below) in grades 8-12 may request to use their applicable teaching experience in place of student teaching. If two years of teaching experience is substituted for student teaching, an additional six hours of upper division elective coursework is required in lieu of the six hours of student teaching. Coursework must be approved by an advisor prior to enrolling. Experience may be documented by submitting a service record or a letter from the headmaster/principal of the accredited school indicating the length of service and the subjects and grade levels taught.

Refer to UTSA catalog for course description and prerequisites.

C&I 4646 Student Teaching Secondary

EXAMINATION REQUIREMENTS
All candidates for certification in the state of Texas must pass state-mandated exams, the Texas Examinations of Educator Standards (TExES). TExES Practice Tests and/or review sessions (as applicable) are required before registering for a TExES exam. For information about practice tests and review sessions, consult the COEHD website (http://coehd.utsa.edu/Students/TExAS/Home_TExES.htm) or contact the TExES Office Hotline at 458-5788. Information is also available on the bulletin board located outside of the TExES office (located in MB 0.500). Preparation manuals for all TExES exams are available at http://www.texas.nesinc.com.

Notes:
1. This Post-Baccalaureate Program is at the Undergraduate Level. If students apply to UTSA as Special (non-degree seeking) Undergraduates (SU), they will be changed to Certification Undergraduates (CU) upon consulting with an advisor and beginning the Certification Program. Please note that SU students have the lowest registration priority and are ineligible for most financial assistance programs.
2. Students interested in pursuing EC-4, EC-4 Bilingual, Special Education or 8-12 Math or Science certification in a graduate level program should consult the UTSA Master of Arts in Education with a Concentration in Curriculum and Instruction (Teaching) program website at http://isci.utsa.edu/Programs/MAECIT/Index.htm.
3. The Academy for Teacher Excellence offers a graduate-level program leading to 8-12 Math or Science certification through its ATEP program (Accelerated Teacher Education Program, or ATEP). For information, consult the ATE website at http://educ3.utsa.edu/grants/ate/.
4. Sequencing of some of the required courses in this program is important. The following 3-semester sequence is required: Semester 1: IDS 2013 and EDP 3203; followed by Semester 2: EDU 2103, EDP 4203, RDG 3773, and C&I 4203; followed by Semester 3: Student Teaching. Additional courses may be incorporated into Semester 1 and 2 and must be completed before Student Teaching is attempted.
5. After 3 consecutive semesters of non-enrollment in the University, a student becomes "inactive". If they re-enroll, they must re-apply to the program and meet the current admission standards.
6. An "accredited school" is (i) either a public school or charter school accredited by TEA and appearing in the Texas School Directory published by TEA and updated on its website at http://askted.tea.state.tx.us/, or (ii) a private school accredited by the Texas Private School Accreditation Commission (TEPSAC) and appearing in the list of Accredited Non-Public Schools as published by TEA and updated on its website at http://askted.tea.state.tx.us/. If the experience is earned in a school located in another state, the school must be accredited by a state agency equivalent to TEA.
