Application to Enroll in Evening Course Section – Fall 2010

The Department of Interdisciplinary Learning and Teaching offers several undergraduate courses in the evening. Enrollment in the evening sections, however, is restricted. Evening sections are restricted to students who:

- are currently employed in a school setting;
- are full-time/daytime employees whose employers agree to allow them to do field work during the day;
- are Post-Bach students
- all level Special Education

Fieldwork for RDG 3823 and RDG 4833 will take place in the evening in UTSA Reading Place/Plaza de Lectura. To be considered for evening sections, students must submit an application to the ILT department chair. Students must be admitted to the Teacher Certification Program before applying for admission to evening block and meet all prerequisites for these courses. (Post-bach students must meet requirements of their program for these courses.)
