In order for students to be considered Highly Qualified to teach grades other than 7 & 8 for the content listed above, students will be approved to take the Generalist EC-6 or Generalist 4-8 exam.
UTSA will approve individuals to take either of these exams while they are in the program after these requirements have been met:

- Take a Generalist EC-6 Practice exam
- Attend the Generalist Review session
- Generalist 4-8 only requires taking a Practice exam.

Students will add the Generalist certification to their teaching certificate after they have been recommended for content certification.

*Note: Students may complete the required Practice Tests and required Review Sessions in any order.*

When the Practice Test and Review Session requirements have been met, students may register for one state TExES exam per test session.
