1. Please briefly describe the scope of your agency's work. Printed brochures or fact sheets explaining your organizational goals may be attached.

Kinetic Kids are children from all walks of life who experience the daily struggles of life-long challenges including but not limited to cerebral palsy, spina bifida, down's syndrome, autism, asperger's syndrome, brain tumors, cancers, or other neurological disorders. These children have the desire to perform age-appropriate recreational and sports activities like their typically developing peers. They are children who may use wheelchairs as their primary mobility or they may use a walker or crutches. They may also be independent with mobility but for other reasons are limited in their participation from recreational activities with their peer group. Kinetic Kids vision is to enrich the lives of special needs children by creating programs that encourage mobility and activity. By providing physical and recreational programs not typically available to children with special needs, we intend to foster the development of courage, confidence, self-esteem pride, and joy, so these children can achieve new possibilities previously unimaginable.

<tr>
<th>NAME</th>
<th>TITLE/RESPONSIBILITY</th>
<th>PHONE#</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tiffany Saenz Neal, PT, DPT</td>
<td>Internship Coordinator</td>
<td>210-621-3505</td>
</tr>
</tbody>
</table>

3. Briefly describe the internship experiences available with your agency.

The internship includes working closely with the physical therapists in coordinating and running all programs throughout the semester. Working with all participants in each program in hopes to better develop courage and self-esteem while allowing them to participate in everyday recreational and sports activities.

4. Are there any restrictions to an internship that the student or university should be aware of? Will this be a paid position?

No known restrictions apply and this is an unpaid internship
