1. Please briefly describe the scope of your agency’s work. Printed brochures or fact sheets explaining your organizational goals may be attached.

Healthy Futures is a non-profit organization working to prevent teen and unplanned pregnancy. Healthy Futures has two current projects (1) to support the work of the Healthy Futures Alliance. The HFA is a community coalition with volunteers working on developing strategies to address teen pregnancy as well as unplanned pregnancy with those in their 20's. (2) to disseminate the Big Decisions curriculum.

Please see attached brochure. More information can be found at: www.HealthyFuturesTX.org and www.BIGDECISIONS.org.

3. Briefly describe the internship experiences available with your agency.

At this time, interns will be able to facilitate sexual education classes to students in SAISD. The interns will also facilitate service learning projects with high school students. We anticipate that interns will also work in the office preparing curriculum lessons, contacting schools, maintaining files, and outreach. Interns will also participate in Healthy Futures Alliance meetings and various task forces.

4. Are there any restrictions to an internship that the student or university should be aware of? Will this be a paid position?

There are no restrictions; however, the student will need to pass a criminal background check (provided by Healthy Futures). At this time, this will be a non-paid internship. In the future, funding possibilities might allow for interns to receive a monthly stipend.
