1. Please briefly describe the scope of your agency's work. Printed brochures or fact sheets explaining your organizational goals may be attached.
   
   We are a pediatric outpatient facility who offers occupational, speech and physical therapy as well as Behavioral intervention. The majority of our patients have been diagnosed with autism, we see patients all the way from low functioning autism to aspergers. We also have some patients with Down’s Syndrome and other genetic disorders.

2. Indicate the most appropriate person(s) to contact within your agency regarding internship possibilities.

3. Briefly describe the internship experiences available with your agency.

   Our internship program allows students to observe all 4 disciplines as well as have physical interactions with the children (either through play or helping the therapist). We also ask for minor assistance in the clerical aspect of the clinic such as filling or making a few phone calls about scheduling. The student will be asked to help therapists with creating binders for students or any other assistance that would be required based on patient care.

4. Are there any restrictions to an internship that the student or university should be aware of? Will this be a paid position?

   None paid position, and the only thing we ask is for an interview so that we can make sure that the clinic is a good placement for both the student and us
