• **Exploratory Study** will address three national priorities: 1) innovative education in early elementary grades, 2) integrating family and community-based knowledge into formal science education, and 3) STEM teacher workforce development.

• **Research Activities:** DL science educators will engage in action research to collaboratively create and use a culturally and linguistically responsive pedagogical framework for teaching science in DL contexts.

• **Methods:** Parent, teacher, leader/admin interviews, classroom observations, bilingual science content analysis, teacher action research, and pláticas.
